

Australasian Journal of Herpetology®

Issue 72, 24 June 2024.

Contents

Small and overlooked. New species and subspecies within the Australian skink genera *Morethia* Gray, 1845 and the closely associated *Solvonemesis* Wells and Wellington, 1984..

... [Raymond T. Hoser, 3-13.](#)

Pleistocene splits in the Australian *Odatia tristis* (Schlegel, 1839) species and *Pantherosaurus rosenbergi* (Mertens, 1957) complexes. The formal identification and naming of a new species and three new subspecies.

... [Raymond T. Hoser, 14-24.](#)

Out from the cold ... a new species of Australian Jacky Dragon *Amphibolurus* Wagler, 1830 from the region near the southern border between South Australia and Victoria as well as a new subspecies from New South Wales and Victoria.

... [Raymond T. Hoser, 25-28.](#)

Before we end up with mutts! The formal diagnosis of subspecies within the Sydney basin species, *Hoplocephalus bungaroides* (Schlegel, 1837) and *Amalosia lesueurii* (Duméril and Bibron, 1836).

... [Raymond T. Hoser, 29-34.](#)

Two new subspecies of Mountain Dragon, *Rankinia boylani* Wells and Wellington, 1984 from New South Wales, Australia.

... [Raymond T. Hoser, 35-39.](#)

A new subspecies of *Hesperoedura reticulata* (Bustard, 1969) from south-central Western Australia.

... [Raymond T. Hoser, 40-42.](#)

Atraserpens, a new genus of Australian small-eyed snakes from Eastern Australia as well as a new subspecies of the Northern Small-eyed Snake *Cryptophis pallidiceps* (Günther, 1858) from north-west Western Australia (Serpentes: Elapidae).

... [Raymond T. Hoser, 43-46.](#)

Taxonomic vandalism by Wolfgang Wüster and his gang of thieves. Yet more illegally coined names by the rule breakers for species and genera previously named according to the rules of the International Code of Zoological Nomenclature.

... [Raymond T. Hoser, 47-63.](#)
